

Mini modules DC-DC converters with:

- large input range,
- maximum thermal dissipation facilitated by epoxy resin internal casting and 2 lateral dissipators,
- protection against humidity, dust, shocks and vibrations,
- mounting on DIN rail (A2RD case).

### Electrical data

#### ♦ "Vin" Input (protected against undervoltage and surge pulses)

- two voltage input ranges available:
  - 9 to 36V (accidental max.: 50V / 0.1s) for Vout = 12V/15V/24V
  - 18 to 75V (accidental max.: 100V / 0.1s) for Vout = 12V
- no load consumption: 70mA to 250mA (see table)
- possible external fuse: 25A (12A for 18 to 75V)
- optional "ON/OFF" remote control

#### ♦ "Vout" Output (soft start in 20ms)

- 12V/15V/24V (Vin : 9 to 36V) and 12V (Vin : 18 to 75V); accuracy: 1%
- optional fit with embedded "10 revolutions" axis: ±10%
- line and load regulation: <  $10^{-3}$  of Vout
- temperature coefficient:  $2.10^{-4}$  of Vout, per °C
- switching frequency: fixed (210 to 300 kHz)
- residual ripple: ≤ 1% of Vout
- nominal efficiency: 87 to 90% (losses ≤ 15W)
- dynamic response: < 1% of Vout / 150µs / load 50% to 75%
- permissive capacitive load: 2200µF to ≥22,000µF depending on load

### Protections

- input-output insulation: 2000V DC. Internal filter on the input
- against overload and short circuit (even constant) by pulsed flow
- in case of inductive load: option "L" will reinforce protection
- inversion Vin ; this option reduces the efficiency
- abnormal temperature rise: automatic shutdown and restarting
- sealing: IP67 protection against water and dust

### Thermal and environmental performances

- storage: -55 to +125°C ; operating: -40 to +100°C
- cooling: natural convection (derating 3.3% per °C)
- temperature rise of the case, at full load: +30°C
- maximum ambient temperature:
  - 70°C at full power
  - 85°C at half power
- vibrations, shocks, humidity: protection by epoxy resin

### Standards and specifications

- marking CE/UL60950-1, ICE60950-1, EN60950-1 / RoHS
- flammability: UL94HB, horizontal test
- MTBF: > 5.10<sup>5</sup> hours, case at 25°C
- worldwide manufacturers for active parts
- assembling and final controls: ELECDAN-CONVERTER

| Case mountable on | Length     | Width x depth | Material Weight | add SKU | Connections |
|-------------------|------------|---------------|-----------------|---------|-------------|
| DIN rail          | 69 + 15 mm | 64 x 48 mm    | PA 2002         | 340g    | A2RD        |

|                       |                                     |       |                            |    |
|-----------------------|-------------------------------------|-------|----------------------------|----|
| OPTIONS and their SKU | Vout fit with axis "10 revolutions" | AJ    | "inversion" protection     | PI |
|                       | inductive load driving              | L     | wired outputs              | F  |
|                       | "ON / OFF" remote control           | H     | Vout presence indicator    | V  |
|                       | other Vin and/or Vout               | value | personalized case          | P  |

| 5 - 4                | 28                  | 3.5     | 140 | CC 28-3.5 / 1136    |                  |               |
| 5 - 5                | 18V to 75V          | 12      | 8.3 | 70                  | CC 12-8.3 / 1875 |               |

NB: model No. 5-4 (output 28V) requires Vin min = 11V

Case A2RD  
DIN rail mounting  
width: 9 + 69 + 6 mm  
height: 64 mm  
depth: 48 mm

Front view

(64 x 48 mm)

Optional

### Case 1CIHR, output voltage 12V

- dimensions in mm: 64 x 64 x height 33
- weldable on printed circuit ("half-brick" type of location)
- cooling by built-in fan, pluggable
